4. Dr. KAL was a captain of horse during the first world war, very rich, was the owner of a hotel in Budapest, is living in Budapest, Hungary at present, was co-operating with the Hungarian Catholic Mission of the priest KAL which has got a strong aristocratic character. KAL was charged by KAL to care for all Hungarian priests of the migration. KAL used to be the President of the Relief Committee of the Migration. Two months ago it came to a disagreement between KAL and KAL which resulted in KAL's resignation. Since then two Catholic towns are existing - the one of KAL and that one of KAL which is described as being very religious. KAL is considered as being extremely fair.

5. RAY (not THAY) was living in Budapest, Hotel Europe, and RAY for some time and recently disappeared, allegedly he left for Berlin.

6. Final remark of source:-

Sub-source regrets the strong split up amongst the Hungarian Migration. They chiefly were against each other, compromising themselves by evil business, fraud, falsifications, etc. They no longer have the moral right of representing the Hungarian nation. Most of the so-called active members have not the slightest idea of the real conditions in their country, except perhaps the groups of KAL and KAL who are working in KAL (for the British) and that of General KAL.
